ABOUT

Scapin Collezioni is an Italian brand representing a new vision of contemporary design.

Scapin Collezioni è un brand italiano che rappresenta una nuova visione del design contemporaneo.

The Scapin collection emerged out of La Veneta, a company with historical value and a strong establishment in the world of art furniture. This branch aims to exploit the artisanship knowledge and techniques by revisiting objects in a modern way by combining innovative materials and various vanguard production technologies.

Nato come un'appendice di La Veneta, un'azienda con una realtà storica e ben consolidata nel mondo dei mobili d'arte, mira a sfruttare la conoscenza e le tecniche artigianali rivisitando gli oggetti in chiave moderna, utilizzando materiali innovativi e tecnologie di produzione all'avanguardia.

US

This standard is obtained by the high precision CNC machinery which is employed to feat both high quality and maintain proper aspects of materials involved.

I macchinari ad alta precisione CNC sono utilizzati per dar risalto a tutte le qualità e caratteristiche dei materiali.

Collaborations with the best artists and designers combined with high quality production processes give to Scapin Collezioni its peculiarity on creating something iconic. Each piece can be characterized by soft shapes and tactile surfaces which maintain sculptural solutions at the cunning edge of the world of art.

Collaborazioni con i migliori artisti e designer combinate con i processi di produzione di alta qualità attribuiscono a Scapin Collezioni la peculiarità di creare qualcosa di iconico, caratterizzato da linee morbide e superfici tattili con soluzioni scultoree ai margini dell'arte.

Colorama collection is born through the idea of reevaluating and exalting the hardly reachable handicraft which is part of La Veneta's history. Starting from these considerations, objects, featured by soft and fluid lines, have been created by elaborated and elegant finishes, which unites technique and craftsmanship. Lacquered, brushed, stained woods, connote themselves of fresh and funny colors, adapting perfectly to any type of environment.

La collezione Colorama nasce dall'idea di rivalutare ed esaltare il lavoro artigianale difficilmente replicabile che fa parte della storia di La Veneta. Partendo da queste considerazioni sono stati creati oggetti caratterizzati da linee morbide e fluide con finiture elaborate ed eleganti che uniscono la tecnica alla manualità. Legni laccati, spazzolati, verniciati si connotano di cromie fresche e divertenti adattandosi perfettamente a qualsiasi tipologia di ambiente.

DESIGNED BY

Matteo Zorzenoni was born in Treviso in 1978. The style that sets him apart and has made him one of the most promising Italian designers is the continuous study of the materials and being able to unlock their unexpected potential, like creating glasses made of concrete, glass structures, liquid metal tables. His projects have been showcased in some of the most important exhibitions worldwide including: Maxxi in Rome, Triennale di Milano, London Design Festival, Centre Pompidou and the Biennale of Architecture in Venice. After a long experience as a consultant for Fabrica (since 2006), he currently works alongside Jaime Hayon following the Italian branch of the studio. In parallel, he continues his research into the world of high-quality craftsmanship and the creation of new projects for several design brands.

Matteo Zorzenoni è nato a Treviso nel 1978. Lo stile che lo contraddistingue e che lo ha reso uno dei più promettenti designer italiani è lo studio continuo dei materiali e la possibilità di liberarne le potenzialità inaspettate, come creare vetri in cemento, vetro strutture, tavoli in metallo liquido. I suoi progetti sono stati esposti in occasione di alcune delle più importanti mostre del mondo, tra cui: Maxxi a Roma, Triennale di Milano, London Design Festival, Centre Pompidou e Biennale di Architettura a Venezia. Dopo una lunga esperienza come consulente per Fabrica (dal 2006), attualmente affianca Jaime Hayon, occupandosi della sede italiana dello studio. Parallelamente continua la sua ricerca nel mondo dell'artigianato di alta qualità e la creazione di nuovi progetti per diversi brand nel settore dell'arredo.

SIDE TABLE, designed by Matteo Zorzenoni

CANTILEVER

Cantilever is a collection of small tables characterized by their visual imbalance created because its cantilevered top is supported by a small base. Designed in two versions, a low model for the armchair and a higher version that enables the top to get over the seat of the sofa, the elements are presented in two finishes, lacquered and stained ash, and in several colors.

Cantilever è una collezione di tavolini caratterizzati dal loro sbilanciamento visivo creato a causa del loro piano sporgente sorretto da una piccola base. Progettato in due versioni, un modello basso per la poltrona e un modello più alto che consente al piano di superare il sedile del divano, è prodotto in due finiture, frassino tinto e laccato, e in diversi colori.

OBLÒ

Oblò is a collection of cabinets and cupboards with strong personalities. Circular and oblong holes covered in glass characterize the surfaces of the doors and allow a glimpse of what is stored inside. The piece is made in ash and the legs are produced in lacquered metal.

Oblò è una collezione di cabinet e credenze con una spiccata personalità. Fori circolari e di forma allungata rivestiti in vetro caratterizzano la superficie delle ante e permettono di intravedere ciò che è contenuto all'interno. Il pezzo è in frassino, mentre la struttura viene prodotta in metallo verniciato.

SETTEBELLO

The Settebello's cabinet takes its name from the famous ETR 300 train, whose characteristic was a large circular window at the front and rear of the train. Soft and flowing lines combined with full and empty shapes, enhance the cupboard's classical references interpreted in a contemporary voice. Presented with glass doors, the cupboard is also produced with blind doors and in two finishes, lacquered and stained ash.

Il cabinet Settebello trae il suo nome dal famoso treno ETR 300, la cui caratteristica era una grande finestra circolare nella parte anteriore e posteriore del treno. Linee morbide e fluide combinate con un gioco di forme piene e vuote, esaltano i riferimenti classici della credenza interpretata con voce contemporanea. Presentata con ante in vetro, la credenza è anche prodotta con ante cieche in due finiture, frassino laccato e tinto.

Wooderkammer Collection celebrates the beauty of wood. The inspiration for this collection is derived from natural world alone. Wooderkammer creates magic objects from organic shapes of nature in their natural behaviors. The main element of this project is the recovery of an ancient tradition inlay. This tradition has been repurposed and reinvented in a modern style, thanks to the work of Hi-tech machinery. As a result, a collection of sculptural objects designed by a research of timeless concepts.

Wooderkammer è una collezione che celebra la meraviglia del legno e che trae ispirazione dal mondo naturale, creando degli oggetti magici, capaci di rievocare le forme organiche della natura e i suoi atteggiamenti. Elemento fondamentale di questo progetto è il recupero di un'antica tradizione, quella dell'intarsio, che viene riproposto e reinventato in chiave moderna grazie all'altissima tecnologia dei macchinari utilizzati. Una collezione di oggetti scultorei creati secondo una ricerca di concetti senza tempo.

DESIGNED BY

Born in Massalombarda, Italy, in 1976, Marcantonio Raimondi Malerba, a well-known artist and designer from Romagna, emerges in the Italian design panorama with his personal and unique vision, by creating design objects constantly enriched with artistic concepts. The main theme loved by the artist is that of the connections between man and nature. Interpreting both the dynamics and the beauties of nature and showing man's behavior, influences and interacts with the original. Marcantonio's creative thinking is totally loosened from schemes, more represented by a research of pure and synthetic concepts, a method which allows him to exactly create what his mind can imagine. Thanks to the art's teaching, conferred by his artistic education, Marcantonio is able to give elegance to ideas concretizing them in unique pieces of design almost magic.

Nato nel 1976 a Massalombarda, in Italia, Marcantonio Raimondi Malerba, noto artista e designer romagnolo, emerge nel panorama del design italiano con la sua visione personale e unica, creando oggetti di design costantemente arricchiti da concetti artistici. Il tema principale amato dall'artista è quello delle connessioni tra uomo e natura, interpretando sia le dinamiche sia le bellezze della natura e mostrando l'atteggiamento dell'uomo che influenza e interagisce con l'originale. Il pensiero creativo di Marcantonio è completamente slegato da schemi, rappresentato più da una ricerca di concetti puri e sintetici, un metodo che gli permette di creare ciò che esattamente la sua mente è in grado di immaginare. Grazie agli insegnamenti dell'arte impartiti dalla sua formazione, Marcantonio riesce a donare eleganza alle idee, concretizzandole in pezzi di design unici, quasi magici.
